

billy

Virtual try-on for pre-loved clothing

Product pitch and demo

SDG 12 prototype

Choosing from a listing

A product photo shows the garment.
The shopper still has to imagine
it on themselves.

Billy starts with pre-loved pieces
and retailers' unsold stock.

AI-generated demo garment

Two photos, one preview

Add a photo, choose a garment, then generate a look.

01 Your photo

02 A garment

03 The preview

AI-generated demo. Sizing still needs measurements.

Try-on while you browse

Test resale shop (fixture for Billy's extension tests)

Rust corduroy shirt

S\$24 · Size L · Pre-loved

Add to cart

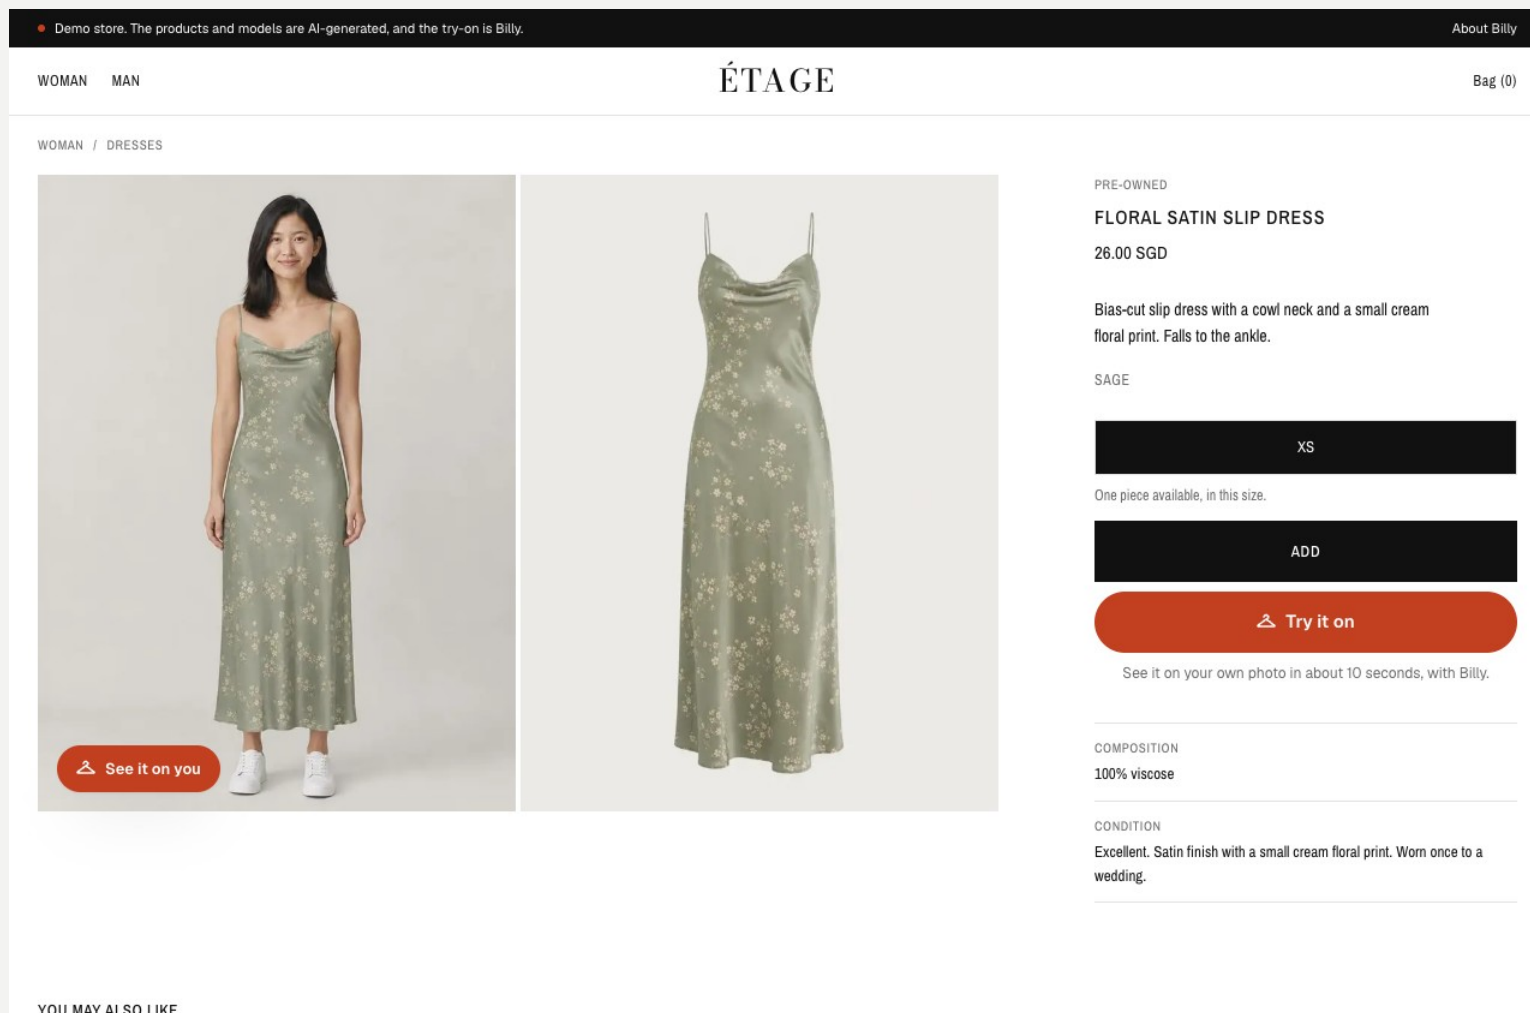

Hover a photo
or drag it in

The preview appears
on the shop page

Save a look
and keep browsing

Try-on inside a shop

ÉTAGE is Billy's fictional retailer demo.

**A Billy button
on the product page**

Preview the garment,
then add it to the
shop's own bag

Fictional stock.
Checkout is disabled.

Deciding before buying

Would you buy it?

Save a look and
record your verdict.

Compare two options
side by side.

Side by side

Red gingham sundress

S\$28 · Surplus stock · New with tags

Would buy

Demo looks and example verdicts

SDG 12 and reuse

12.5

**Reduce waste
through reuse**

Billy's hypothesis

A clearer preview may help shoppers choose pre-loved or surplus clothing they would otherwise pass over.

Reuse and waste reduction are goals.
Billy has not measured environmental impact.

What works today

Quick and Detailed previews

Select a render quality with streamed previews.

Outfit layering and saved looks

Keep pieces on, then compare or share a look.

Studio, extension and demo shop

Try-on in Billy or inside the demo retailer.

Optional live mirror

Off on the live site.

A real Decart session still needs testing.

Demo stock. Visual fit is approximate.

Purchase confidence pilot

Proposed study

12 shoppers

People already shopping for pre-loved clothing.

3 garments

The same listings with and without a preview.
Alternate the order.

1 to 5 rating

Confidence in the choice, plus a purchase verdict.

Also record generation failures and time to decide.
